

REMARKS

Applicants received a Notice of Omitted Items which indicates that Fig. 11, described in the specification, appears to have been omitted from the application.

Applicants elect to take action pursuant to option III, amending the specification to conform the specification to the drawings, which contain Figures 1 through 10.

Applicants have reviewed the Application and respectfully submit that the application as filed only has, and was intended to have, only 10 figures. The specification incorrectly indicates that four figures, i.e., Figures 8-11 illustrate a flowchart. However, the flowchart is illustrated in just three figures, i.e., Figures 8-10. Figure 8 illustrates steps labeled in the S1000 series; Figure 9 illustrates steps in the S1100 series; and Figure 10 illustrates steps in the S1100 and the S1200 series.

Under the circumstances, Applicants respectfully submit that the proposed Amendment to the specification, which indicates that Figs. 8-10 illustrate a flowchart, does not include new matter, and request that the Amendment to the Specification be entered.

Respectfully submitted,
